40101(d) Grid Resiliency Grants

DOE's Objectives:

- Improve the all-hazards resilience of the electric grid against disruptive events.
 - An event in which operations of the electric grid are disrupted, preventively shut off, or cannot operate safely due to extreme weather, wildfire, or a natural disaster.
- Investment in modernized grid infrastructure that can enable consumer access to lower-cost energy.
- Accommodate increased electrification, renewables, and distributed systems.

40101(d) Grid Resiliency Grants

Summary:

- Program appropriates approximately \$471 million funding in FY2022 and approximately \$459 million per year for FY 2023-2026.
- Kansas' portion is approximately \$6.7 million for FY 2022 and \$6.6 million for FY 2023. (\$13.3M total)
- The State is sub-granting to eligible entities for approved projects.
