

Session 3: Grant Opportunity Research

2024 Hub Summit

April 24, 2024

Agenda

- ✓ Grant Planning
- ✓ KS Hub Website
- ✓ Grants.gov
- ✓ Other Available Resources
- ✓ Hub Capacity Extension Team

Grant Planning

Establish an Intelligence Network

- Ever expanding set of funding conduits - need to look beyond federal sources
- Need to develop an increased understanding of funding conduits
- Increase focus on state and philanthropic grant opportunities

Develop a grants plan that reflects entity wide priorities

- Documented grants plan helps define and prioritize opportunities
- Create grants plan in coordination with budget and capital plan development; continuously monitor and update plan
- Key elements include: Elected officials' priorities; current and expected grants; grant funding landscape; strategies and approaches for building and managing the city's grant funds

Grant Planning

Keep inventory of community needs and desired projects

- Focus pursuits based on inventory, regularly update to align with new priorities
- Identify needs that cannot or should not be funded by the general fund

Develop tools and processes to identify a potential “capital stack”

- Few significant projects rely on a single funding source
- Determine how to properly layer funds and optimize funding
- Understand the timing considerations associated with all funds in the stack as well as any potential costs (e.g., interest)

Opportunity Identification

Track funding opportunities on a regular basis

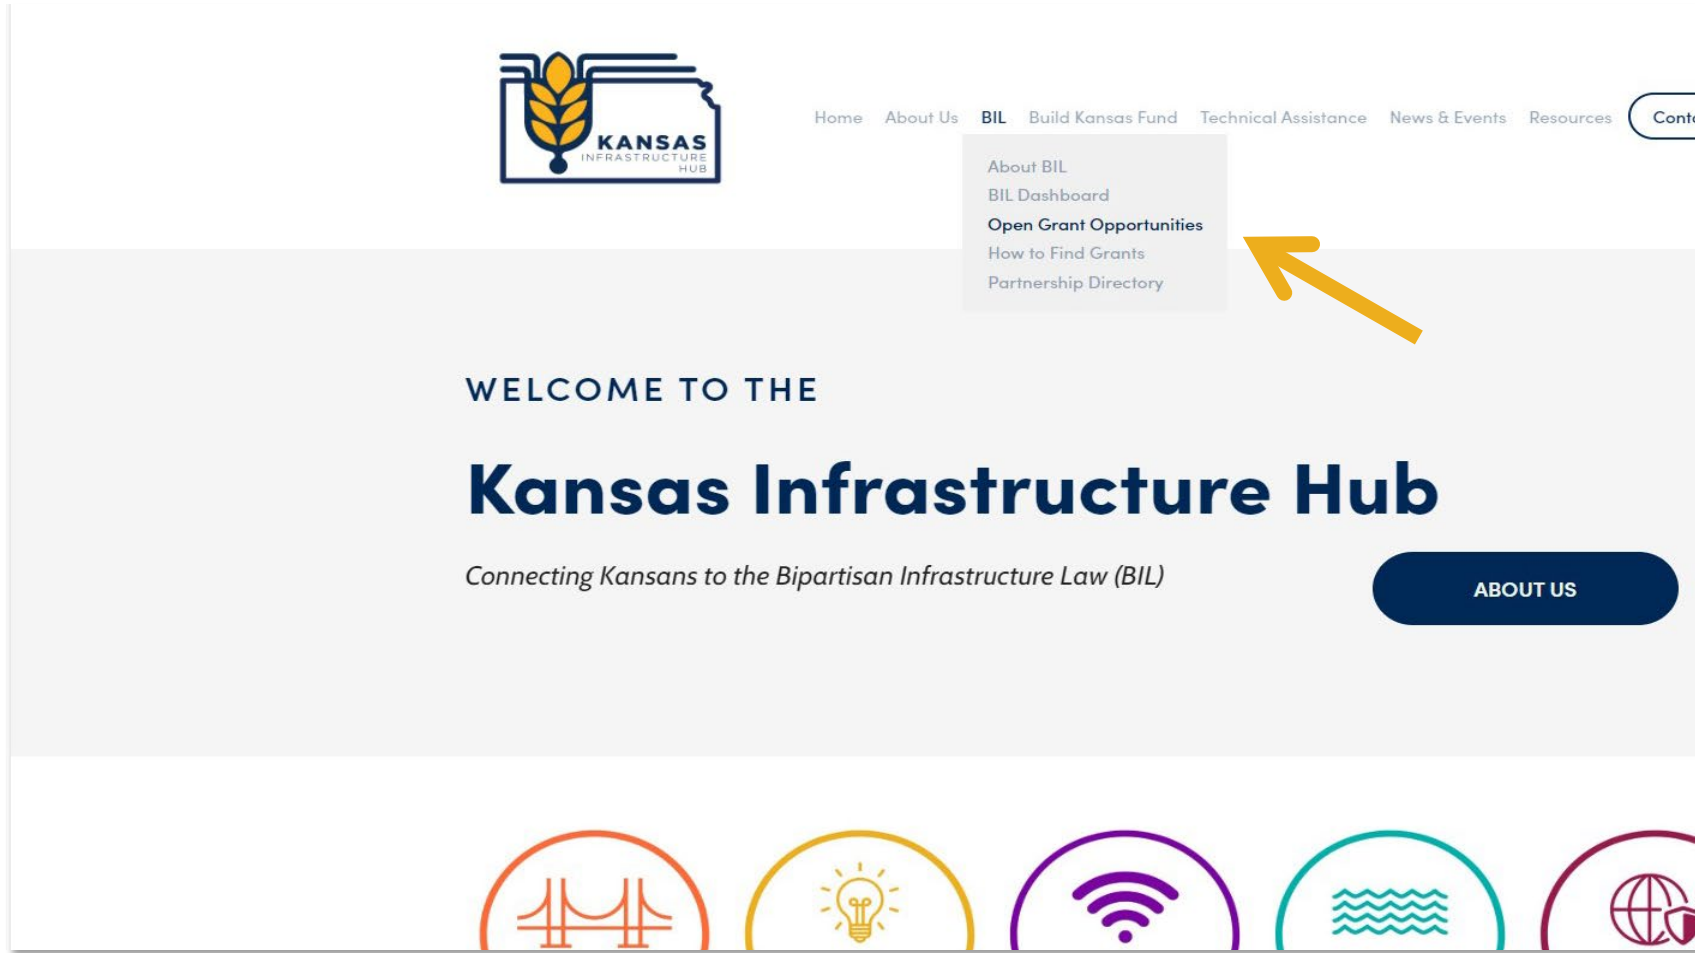

- Know where NOFOs are posted and register for notifications
- Application timelines are short - team should meet at least once a month
- Track grantor's funding rhythm to prioritize projects
- Consider automation via grants management technology

Opportunity Identification

Establish a decision criteria

- Ensure grant pursuits align with priorities
- Define key elements to use for vetting opportunities
- Consider ability to implement when making pursuit decisions
- Build off prior successful experiences (internal & past awardees)
- Share grant opportunities that may not be an internal fit with external partners

Grants.gov: Search Grants

- Search for opportunities using the Keyword(s) function, being as specific as possible
- Narrow the results using the toolbar on the left side of the screen; make selections applicable to your entity's characteristics and needs
- Save the search criterion that have been selected; doing so makes it easy for Grants.gov to send notifications in the future for relevant funding opportunities

Grant Support

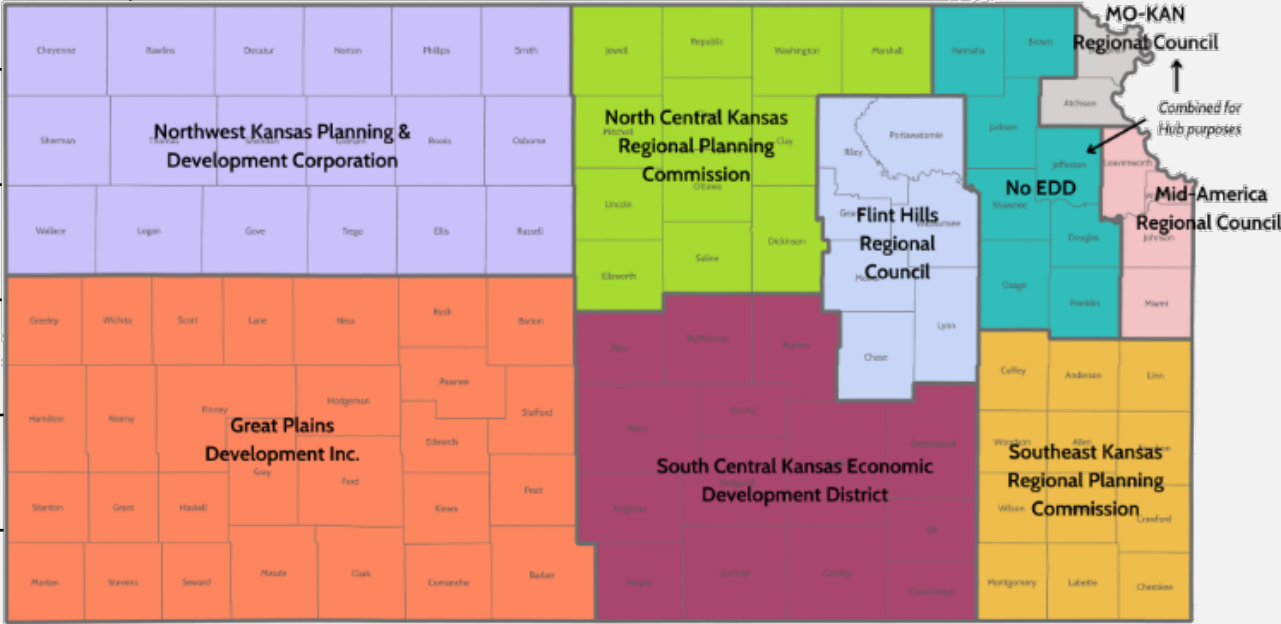

Our Community Vitality team offers grant writing classes, specific grant searches, access to professional grant writing tools and personal coaching for people who write grants for Kansas communities.

Participants in grant writing classes wrote \$42 million of successful grants within the first year of the class. With the support of our professionals, communities enrolled in the [Kansas Community Empowerment \(KCE\)](#) program have increased the number of private and public funds raised by 190% during 2020-2022.
